WARNING

- Do not begin the installation until you have read and understood all the instructions and warnings contained in this installation sheet. If you have any questions regarding any of the instructions or warnings, please contact your local distributor.
- This mounting bracket was designed to be installed and utilised **ONLY** as specified in this manual. Improper installation of this product may cause damage or serious injury.
- This product should only be installed by someone with good mechanical ability who has basic building experience and fully understands this manual.
- Make sure that the supporting surface will safely support the combined weight of the equipment and all attached hardware and components.
- If mounting to wood wall studs, make sure that mounting screws are anchored into the center of the studs. The use of a stud finder is highly recommended.
- Always use an assistant or mechanical lifting equipment to safely lift and position the equipment.
- Tighten screws firmly, but do not over tighten. Over tightening can cause damage to the items, This greatly reduces their holding power.
- This product is intended for indoor use only. Using this product outdoors could lead to product failure and personal injury.

Component Checklist

IMPORTANT: Ensure that you have received all parts according to the component checklist prior to installation. If any parts are missing or faulty, telephone your local distributor for a replacement.

Package M

Package W

1a. For Wood Stud Wall Mounting

Find and mark the exact location of mounting holes.

Drill pilot holes

Screw the wall mount onto the wall

⚠ WARNING

- Make sure that mounting screws are anchored into the center of the studs. The use of a stud finder is highly recommended.
- Installers are responsible to provide hardware for other types of mounting situations.
- Installers must verify that the supporting surface will safely support the combined weight of the equipment and all attached hardware and components.

1b. For Solid Brick and Concrete Mounting

Mark the exact location of mounting holes

Drill pilot holes

Screw the wall mount onto the wall

⚠ WARNING

Installers must verify that the supporting surface will safely support the combined weight of the equipment and all attached hardware and components.

2. Installing the Plastic Caps

3. Installing the VESA Plate

It is necessary to slightly loosen or tighten the adjustment screw using the supplied Allen key.

Note: Choose the appropriate screws, washers and spacers (if necessary) according to the type of screen. Screw the VESA plate onto the TV.

⚠ Tighten all screws but do not over tighten.

4. Hanging the TV onto the Wall Plate

- Slowly fit the VESA plate onto the wall plate rail.
- Tighten the both set screws to secure it.

Use the padlock to prevent TV from being stolen. (Padlock is not included)
